Priyam Srivastav – DevOps Engineer (API Management & Cloud Operations) | Wipro

Phone: +91 8787074252 | Email: spriyam924@gmail.com | Location: Pune | LinkedIn

DevOps engineer with 2+ years of experience in API Management & Cloud Operations, CI/CD automation, and cloud-native deployments. Skilled in Kubernetes, Terraform, and monitoring tools (Splunk, Datadog, Dynatrace). Proven track record of reducing incidents by 92% and improving deployment speed by 80%. Seeking to leverage expertise in cloud and automation for scalable infrastructure roles.

TECHNICAL SKILLS

Cloud Platform**: AWS (EC2, IAM, S3, VPC, Cloud Formation, CloudFront)** | Infrastructure as Code: **Terraform** Containerization: **Docker | Kubernetes** CI/CD: **GitHub Actions | Jenkins | Digital.ai** Monitoring: **Splunk | Datadog | Dynatrace** Version Control: **Git | GitHub | Bitbucket** Operating System: **Linux | Windows** Programming: **Python | Bash | Shell Scripting** Databases: **MySQL | PostgreSQL | MongoDB** Concepts: **CI/CD | Infrastructure as Code | DevOps | API Gateway | Incident management | Production Support | Release Management | Automation**

PROFESSIONAL EXPERIENCE

DevOps Engineer – API Management & Cloud Operations | Wipro — Pune (MH) IN | Sep 2024 – Present

- Managed cloud-native API onboarding, offboarding, and lifecycle changes using **Azure API Management (APIM)** and **Envoy Proxy**, supporting and maintaining **300+ production APIs** across multiple environments.
- Ensured high availability through observability with **Splunk, Datadog, and Dynatrace**, reducing incident resolution time by 30% via proactive monitoring and troubleshooting.
- Supported weekly continuous deployments and production release activities using **Digital.ai**, achieving **zero major release failures** and reducing deployment turnaround time by 20% through improved coordination.
- Investigated and resolved **50+ production incidents** in **Linux environments** while maintaining **99%+ SLA compliance**, contributing to application reliability and **Disaster Recovery** readiness.
- Managed source code and deployment configurations with **GitHub** and **Bitbucket**, and participated in **CI/CD workflows, Infrastructure Automation** and release management activities.

KEY PROJECTS EXECUTED

1. **Capstone Project: AI Banking Application** | May 2026
   - Provisioned infrastructure with Terraform and orchestrated deployments using Kubernetes manifests and Docker containerization.
   - Implemented Git-Ops with Argo CD, enabling automated reconciliation, drift detection, and self-healing, making GitHub the single source of truth and eliminating avoidable SSH/hotfix interventions.
   - Automated CD with Argo CD, reducing time-to-market by 80% (from 10–12 minutes to 2–3 minutes).
   - Secured workloads with SSL certificates via Cert Manager with AWS Secrets Manager and IRSA (IAM Roles for Service Accounts, significantly reducing threats.
   - Reduced incidents from 24 to 2–3 per year clear reduction of 92%.
   - Ensured 99% SLI uptime across requests and availability using Amazon EKS for auto scaling.
   - Set up Prometheus + Grafana observability stack for real-time metrics and alerts.

CERTIFICATIONS

1. **AWS Certified:** Cloud Practitioner | **Valid until** Aug 2029

EDUCATION

1. **B-Tech in Electrical Engineering**| Madan Mohan Malviya University of Technology, Gorakhpur, UP| Sep 2022| 1st – Division
2. **Intermediate – Science (with Mathematics)** | Kendriya Vidyalaya DLW, Varanasi, UP| April 2017| 88 %
3. **High School – Science** | Kendriya Vidyalaya DLW, Varanasi, UP| Apri 2015| 9.2 CGPA
